Many of the people of North Carolina think that the number of foreigners who are constantly flocking to our happy country are nothing but paupers, and consequently are a disadvantage to the country. This, upon the slightest reflection, the reader must perceive 18 a total mistake. There can be no doubt but that if every one of those who emigrate to this country came here without one cent in their pockets, they would be an accession to our national wealth. For labor being the true and only source of all wealth, the more of it comes into our country the better. But it will be seen from the above paragraph that the emigrants not only bring strong arms and willing hands to our country, but they also bring a large amount of cash capital. RESULT OF EMANCIPATION IN THE ISLAND OF JAMAICA

Mr. D., as I learn, brought to a respectable merchant in Baltimore letters of introduction very satisfactorily vouching his high moral character.
